

ISSUE 6: Image Upload Endpoint Accepts All File Types Instead of Only Images

DESCRIPTION:

- The image upload endpoint was allowing any file type to be uploaded.
- This was not secure and violated expected behavior.
- The validation was updated to permit only JPEG, PNG, or WEBP image file types.

localhost/docs#/default/upload_profile_picture_upload_profile_picture_post

POST /upload-profile-picture Upload Profile Picture

Parameters

No parameters

Request body required

multipart/form-data

file required
string(\$binary)

Execute Clear

Resolved Issue:

localhost/docs#/default/upload_profile_picture_upload_profile_picture_post

Responses
